

## In brief

### Health service directory launched

» A directory of mental health services compiled by students of the MA (Development) programme of Azim Premji University was launched in the city on Thursday.

The event was part of a two-day round table 'Taking Charge: Understanding Critical Issues in Mental Health'. Around 25 participants from diverse backgrounds ranging from psychiatry to social work came together to address emerging concerns on youth and mental health in the Indian context.

There was special focus on setting the context for mental health issues among youth and the nature of support, interventions and efforts of different stakeholders.
